Similar blocks of code found in 4 locations. Consider refactoring.

OPEN

```
129 def test_stream_data_persistence(self):
130
131     response = self.client.post(self.url, self.data, format='json')
132     self.assertEqual(TwitchStream.objects.all().count(), 1)
133     for info in TwitchStream.objects.all():
```

Found in CrossData/API/tests.py and 3 other locations - About 5 hrs to fix

Similar blocks of code found in 4 locations. Consider refactoring.

OPEN

```
93 def test_steam_data_persistence(self):
94
95     response = self.client.post(self.url, self.data, format='json')
96     self.assertEqual(InfoSteam.objects.all().count(), 1)
97     for info in InfoSteam.objects.all():
```

Found in CrossData/API/tests.py and 3 other locations - About 5 hrs to fix

Similar blocks of code found in 4 locations. Consider refactoring.

OPEN

```
105 def test_youtube_data_persistence(self):
106
107     response = self.client.post(self.url, self.data, format='json')
108     self.assertEqual(InfoYoutube.objects.all().count(), 1)
109     for info in InfoYoutube.objects.all():
```

Found in CrossData/API/tests.py and 3 other locations - About 5 hrs to fix

Similar blocks of code found in 6 locations. Consider refactoring.

OPEN

```
100 def test_steam_data_not_persistence(self):
101
102     response = self.client.post(self.url, self.data_2, format='json')
103     self.assertEqual(InfoSteam.objects.all().count(), 0)
```

Found in CrossData/API/tests.py and 5 other locations - About 1 hr to fix

Similar blocks of code found in 6 locations. Consider refactoring.

OPEN

```
88 def test_game_data_not_persistence(self):
89
90     response = self.client.post(self.url, self.data_2, format='json')
91     self.assertEqual(Game.objects.all().count(), 0)
```

Found in CrossData/API/tests.py and 5 other locations - About 1 hr to fix

Similar blocks of code found in 6 locations. Consider refactoring.

OPEN

```
136 def test_stream_data_not_persistence(self):
137
138     response = self.client.post(self.url, self.data_2, format='json')
139     self.assertEqual(TwitchStream.objects.all().count(), 0)
```

Found in CrossData/API/tests.py and 5 other locations - About 1 hr to fix

Similar blocks of code found in 6 locations. Consider refactoring.

OPEN

```
83 def test_game_data_persistence(self):
84
85     response = self.client.post(self.url, self.data, format='json')
86     self.assertEqual(Game.objects.all().count(), 1)
```

Found in CrossData/API/tests.py and 5 other locations - About 1 hr to fix

Similar blocks of code found in 6 locations. Consider refactoring.

OPEN

```
112 def test_youtube_data_not_persistence(self):
113
114     response = self.client.post(self.url, self.data_2, format='json')
115     self.assertEqual(InfoYoutube.objects.all().count(), 0)
```

Found in CrossData/API/tests.py and 5 other locations - About 1 hr to fix

Similar blocks of code found in 6 locations. Consider refactoring.

OPEN

```
124 def test_twitch_data_not_persistence(self):
125
126     response = self.client.post(self.url, self.data_2, format='json')
127     self.assertEqual(InfoTwitch.objects.all().count(), 0)
```

Found in CrossData/API/tests.py and 5 other locations - About 1 hr to fix

Similar blocks of code found in 2 locations. Consider refactoring.

OPEN

```
73 def test_status_code(self):
74
75     response = self.client.post(self.url, self.data, format='json')
76     self.assertEqual(response.status_code, status.HTTP_201_CREATED)
```

Found in CrossData/API/tests.py and 1 other location - About 1 hr to fix

Similar blocks of code found in 2 locations. Consider refactoring.

OPEN

```
78 def test_status_code_not_created(self):
79
80     response = self.client.post(self.url, self.data_2, format='json')
81     self.assertEqual(response.status_code, status.HTTP_400_BAD_REQUEST)
```

Found in CrossData/API/tests.py and 1 other location - About 1 hr to fix

Function get_table_id has a Cognitive Complexity of 10 (exceeds 5 allowed). Consider refactoring.

OPEN

```
56 def get_table_id(database_id, table_name):
57     url = MB_URL + '/database'
58     params = {'include_tables': 'true'}
59
60     session_id = login_metabase()
```

Found in CrossData/metabase/utlis.py - About 1 hr to fix

Function login_metabase has a Cognitive Complexity of 7 (exceeds 5 allowed). Consider refactoring.

OPEN

```
13 def login_metabase():
14     url_session = MB_URL + '/session'
15     url_current = MB_URL + '/user/current'
16
17     data = {'username': MB_USERNAME, 'password': MB_PASSWORD}
```

Found in CrossData/metabase/utlis.py - About 35 mins to fix

Function check_request_data has a Cognitive Complexity of 6 (exceeds 5 allowed). Consider refactoring.

OPEN

```
48 def check_request_data(self, data):
49
50     attrs_list = [
51         "name", "languages", "genre",
52         "count_videos", "count_views", "count_likes",
```

Found in CrossData/API/views.py - About 25 mins to fix
